Banner Materials – A wide range of flexible or rigid media up to 300 micron thick can be used with Adjustable Quick Banners. For print quality, strength and dimensional stability, we recommend using 125-150 micron polyester based films with light block layer/backing or 220 micron opaque PVC – both in a matt white finish for optimum print results.

Convex

Promo Counters

- Portable flat-pack design – quick and easy to assemble
- Choice of two styles with white laminate or wood tops
- Durable aluminium frames with silver anodised finish
- White foam PVC display panels
- Panels suitable for vinyl application or direct-to-surface print*
- Optional black carry bags available separately (see page 118)

* Due to possible curvature in convex panels, caution is required when printing direct-to-surface with flatbed digital printers
