3D Table Talkers

Attention-grabbing table-top promotions with stunning lenticular print

Our fine lenticular lens, achieving 100 lines per inch, adds eye-catching 3-dimensional depth to any high definition artwork.

Reverse-printing onto 0.6mm PET protects the design and creates a long-lasting, wipe-clean surface (unlike printed card).

- Reverse-printed PET – artwork is protected behind a durable, wipe-clean surface
- Available in any size and shape up to 200 x 200mm face size
- Double the display area and visibility of a conventional strut card and much more resilient
- Ideal for cafés, bars, clubs and restaurants

Made to order
Minimum order quantity: 500
